**C** RANGE  
GLASSWASHERS

# C RANGE GLASSWASHERS

## Great performance, great durability *and* great value for money

The 'C' range of glasswashers comprises three models; the C350, C400 and C500 which have all been specifically developed to meet market demand for those seeking quality at the right price.

This simple to operate, sturdily built machine may not have the sophisticated options of its 'D' range counterpart but it still produces sparkling results, time after time.

The New C Range offers significant improvements in both wash results and ease of maintenance. The innovative design features streamlined wash arms, fabricated from an advanced polymeric material giving twice the washing power to the corners of the machine.

Maidaid Halcyon offers the most comprehensive range of value for money glasswashers, enabling you to select the most appropriate machine for your location.

Whether you are looking for a machine for a small hotel, restaurant or pub, the 'C' range offers the ideal model, at an affordable price.

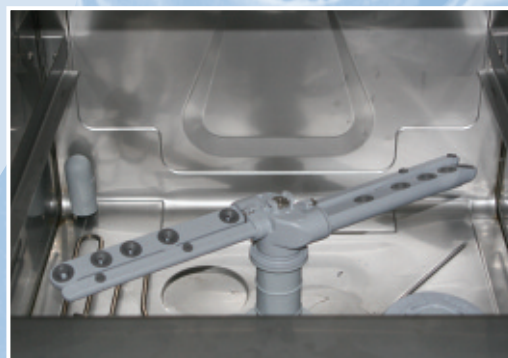

**Maidaid Halcyon**  
So much more than just a glasswasher.

- The C500 is also available as a dishwasher with all the features that make the C range so special

- Straightforward electro-mechanical control panel

- Self-cleaning jets with easily removed wash and rinse arms for daily cleaning

- Simple but stylish appearance to enhance any establishment

## Range Benefits

- Complete range of sizes to suit every establishment from the smallest bar to the busiest nightclub
- Simple controls - just on/off and start with the large C500 model giving an extra selection of cycle time
- Fitted drain pumps available on all models, retro fitting kits also available. Drain pump button fitted as standard
- No unnecessary obstructions within the moulded wash tank - easy to clean
- Great value, easy to maintain machine ensures reduced whole life costs
- Fully adjustable rinsaid dosing driven by the wash pump
- Adjustable peristaltic detergent dosing

## We have everything you need to ensure a perfect result every time

- Water softeners
- Machine stands
- Chemicals
- Racking systems
- Washstations
- Breaktanks

## Select the right model

## Quality Control

Quality of product and after-sales service is based on the operation of systems to the internationally recognised quality standard BS EN ISO 9002. However, above all else, quality of service results from the abilities, motivation and team work of people within the company.
